CO 80517

Fish Hatchery Neighborhood Fire Evacuation Meeting

Join us and representatives from Rocky Mountain National Park, Estes Valley Fire Protection District and the Estes Park Police Department. We will discuss how evacuations are handled in the Fall River Corridor. What did we learn after the evacuation event(s) of 2020, and how potential future developments factor into evacuation protocol.

Hosted and Organized by The Estes Park Housing Authority

****Anticipated agenda reverse side**

Primary Topics to be discussed:

1. **Evacuation Process for RMNP:** What steps are involved, and what insights has the National Park Service gained from their studies?
2. **Fall River Corridor Evacuations:** How are voluntary and mandatory evacuations activated for the current polygons in this area?
3. **Lessons from 2020:** What did we learn from the 2020 evacuation, and how has it influenced our approach to fire events on the west side of the Divide?
4. **Living in a Wildland-Urban Interface (WUI):** A discussion on the inherent challenges and realities. (we will be covering this more in future development meetings with the neighborhood and general community?)
